

Environmental Studies Program  
Science Enrichment and Extensions  
Applied Science and Invention

Describe your invention and the invention process:

1. **PURPOSE** (What problem(s) are you trying to solve?)

---

---

---

2. **HYPOTHESIS** (What do you think will happen?)

---

---

---

3. **MATERIALS** (What do you need to make the invention?)

---

---

---

4. **PROCEDURES** (How did you complete the invention? How did you make it?)

---

---

---

5. **RESULTS** (What scientific or technology concepts did your invention demonstrate?)

---

---

---

6. **CONCLUSIONS** (What did you learn?)

---

---

---
